

From our clients:

"Assisting Hands was essential to our family for several months while my parents prepared to transition to an assisted living location. They came on board during a chaotic health crisis situation. When both of my parents ended up in the hospital, they held things together until my sister and I could travel to the area. They were devoted to keeping my parents safe and comfortable. Ruth was extraordinarily patient and wise helping us navigate the transition. She took many long evening and weekend calls with us to accommodate our busy schedules in different time zones. She also made many, many last-minute adjustments as my parents' needs changed quickly." – **Tracey E.**

"Ruth and her team helped our family for many years. Ruth has always been amazingly kind, patient and caring. She is extremely professional and has a great team of caretakers as well. We were blessed to have found Assisting Hands and would not hesitate to recommend them." – **Tina V.**

"I have relied upon Assisting Hands Dana Point for more than 3 years to provide part time staffing for my mother in her home. We have welcomed 5 to 6 different workers for various needs and each one has been a dream. This agency finds and retains high quality people who are intelligent and compassionate. My mother has Alzheimer's, and the workers have always treated her with respect. Out of the six agencies I initially interviewed I tried two, which were both very disappointing. I found Assisting Hands soon after and recognized right away Ruth Johnson has the right experience and attitude. I give this agency a resounding thumbs up." – **Josie M.**
